

ON YOUR REQUEST

Tell me what you've *been carrying*.

Your experience may become the piece that helps someone else find their way back. You don't need the right words. The feeling is enough.

Anonymous is welcome

You can sign your full name, a first name, or nothing at all. Your privacy is yours to keep.

A few sentences is enough

You don't need to write an essay. A handful of true sentences is plenty for me to begin.

I read every one

Not every request becomes a public piece. Every request is read with care.

WHAT WOULD YOU HAVE THE PIECE SAY

Describe the feeling, the experience, the thing that doesn't have words yet. Take your time.

A few sentences is enough. Specific is more helpful than polished.

SEND WITH CARE

Your request goes to a private inbox. Nothing is shared unless you give permission.

You will hear back within a week, if you asked for a reply.
